## ADDITIONAL SKILLS And Research Interests

- ✓ Clinical trials
- ✓ Qualitative research
- ✓ Quantitative research
- ✓ Systematic review and meta-analysis
- ✓ Mixed methods
- ✓ Education research
- ✓ Validity and reliability instruments

## Thesis

1. Puberty's Pattern and associated factors among girls in Ahwaz
2. Design and test the relationship model of Social Determinants of Health on pregnancy outcomes with an emphasis on the role of food insecurity in pregnant women referring to health centers in Ilam province by the WHO model approach

## Teachings

| School             | * Level         | ** Type of lesson (theory or Practical) | Title of lesson                                                   | Year       |
|--------------------|-----------------|-----------------------------------------|-------------------------------------------------------------------|------------|
| Nursing& midwifery | graduate        | Theory or Practical                     | Courses of Gynecology & obstetrics and Health and Physiopathology | 2024       |
| Nursing& midwifery | Undergraduate   | Theory or Practical                     | Courses of Gynecology & obstetrics and Health and Physiopathology | 2013-2025  |
| Medical            | Medical student | Theory                                  | Community Health                                                  | 2017-2018  |
